

60 Sec Update at Gurukul Public School

Hope you and your family is keeping safe in these tough times. The Corona Virus epidemic has brought everything to stand still but it has also given us time to reflect, rethink and redesign our curriculum. The school is closed till the situation becomes better but we are working from hope to keep our children engaged in studies. It is specially relevant in rural context as there is almost no support system at home for our children who could keep the children productively engaged. As of now our staff is engaged in following activities.

1. Setting up class WhatsApp groups
2. Preparing home assignments and sending it to the class
3. Calling in parents and students at home to ensure that the children are at staying home and not moving out and also completing their assignments.
4. Making a annual plan of all the subjects
5. Refining the plan as we will have fewer number of school days in this session.

Support the children at School

Though the school is closed for now but we all are working hard here to ensure that the learning of our students continues. For the upcoming session we look forward to your support in sponsoring the education of our children. Your confirmation will help us plan better for the session as it becomes much easier for us to manage if we know the number of students for whom we have the sponsorship at the beginning of the session itself. Your support is much needed at this time of uncertainty as it will help us meet our salary obligations to our staff.

The cost of supporting a child's education at school is Rs 12,000 pa and you could support the education more than 1 child if possible. To support you could make your contribution to the account given below:

Name of A/C: Gurukul Public School

A/C no - 2009050000152

Name of Bank: United bank of India,

Branch - Bawan Bujurg Balla
